EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. The application has been amended as follows:

Claim 1, line 1: Between "(" and "amended" insert ---Currently---

Reason for Allowance

3. The following is an examiner's statement of reasons for allowance: The closest art Sakaki et al. (US 5,591,294) teaches a method of manufacturing and storing a recording sheet comprising a base member and a covering layer (equivalent to the claimed ink receptive layer) on at least one side of the base member, wherein the recording sheet is enclosed in a packaging bag (equivalent to the claimed protective sheet). Sakaki neither teaches nor suggests that the covering layer has the claimed surface pH value, and also fails to teach or suggest the claimed value of the difference between the pH of the surface of the packaging bag which makes contact with the surface of the covering layer and the pH of the surface of the covering layer. Furthermore, the criticality of the claimed surface pH value of the ink receptive layer is disclosed in the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
